Table of Authorities

In response to the Advisory Action Before Filing of an Appeal Brief a request for Continuing Examination (RCE) in compliance with 37CRF1.114 and 37CRF1.17(e) was made.

In the office action summary by examiner Jorge Pereiro all of the claims were rejected under 35USC102 and 35USC112. All comments of the examiner were then employed as amended claims and other amended sections of the present patent application to render all parts of the patent application more definite and clear by 35USC112. 37 CFR 1.17(e) and 37 CFR 1.114 were employed to reject the RCE.

The examiner felt that new issues were raised.
